HOW COMPANIES USE IT

Client entertainment

A bay seats four — bring clients in for an afternoon of golf, dinner and drinks without leaving the table.

A standing team night

A weekly bay after work does what the occasional happy hour never quite manages to.

An employee perk

Authorized-user seats your people actually use — golf, practice and 24/7 access, year-round.

Billed monthly to the company, or annually at a saving. Bay sessions are shared across your corporate account for authorized users and their guests, subject to our standard booking guidelines. Bays hold up to four players, so bring clients and colleagues along.
